

## FOR IMMEDIATE RELEASE

# GAS MALAYSIA PROTECTING THE ECOSYSTEM WITH MANGROVE TREE PLANTING PROGRAMME

**KUALA SELANGOR, 8 OCTOBER 2020** – With a commitment to improve conservation efforts of the natural environment, Gas Malaysia Berhad (“Gas Malaysia”), a member of MMC Group, held a mangrove tree planting programme involving its employees at Kuala Selangor Nature Park.

This Corporate Social Responsibility (CSR) initiative was led by the Group Chief Executive Officer, Ahmad Hashimi Abdul Manap, and was made possible by employees from Gas Malaysia that took part in planting 280 mangrove seedlings along a designated area in Kuala Selangor Nature Park. Also present at the CSR event were Prof Dr Ahmad Ismail, President of the Malaysia Nature Society Malaysia and YDH Dato' Mohamad Yaacob Bin Dato' Ismail, Dato' Penggawa Permatang Paduka Maha Bijaya Orang Besar Daerah Kuala Selangor.

Commenting on this CSR initiative, Ahmad Hashimi said, “We subscribe to the view that our corporate ambitions and CSR efforts are interdependent for our business to be sustainable in the long run. This balance is important for us, as we recognise that generating improved earnings in the industry is not our sole priority. As a responsible corporate entity promoting natural gas as a clean energy alternative, we are fully aware of the significant role that our business plays in environmental conservation. Amidst the conditions around the COVID-19 pandemic, we are committed to adhere to the strict Standard Operating Procedures by the Malaysian Government. This includes having the body temperature taken, practise social distancing and wearing face masks.”

In ensuring the success of this CSR programme, supervisors from Kuala Selangor Nature Park will be monitoring the mangrove’s growth and survival over the next year.

“Study has shown that mangroves play an important role as a natural barrier against erosive coastlines and is an important breeding ground for diverse marine life. Given the enormous benefits of cultivating mangrove trees, proper administration and conservation

is therefore necessary to ensure the continued existence of mangroves,” Ahmad Hashimi elaborated.

“Previously, on a similar effort, we have partnered with the Forestry Department of Pahang and executed a CSR initiative by planting *Rhu Pantai* seedlings along the coastline of Kampung Pantai Sungai Ular, Kuantan, Pahang. We will continue to pursue our efforts in the green initiatives to bring a positive and meaningful impact to the environment,” he concluded.

### **About Gas Malaysia Berhad**

*Gas Malaysia Berhad, a member of MMC Corporation Berhad, was established on 16 May 1992 to sell, market and distribute natural gas as well as to construct, operate and maintain the Natural Gas Distribution System (“NGDS”) within Peninsular Malaysia. Gas Malaysia is licensed under the Gas Supply Act, 1993 (“GSA”) by the Suruhanjaya Tenaga (“ST”), with the approval of the Minister, to supply and sell reticulated natural gas in Peninsular Malaysia. On 15 December 2000, Gas Malaysia was granted the licence to supply and sell reticulated Liquefied Petroleum Gas (“LPG”). This licence further expands the Gas Malaysia’s business in the supply of reticulated LPG to commercial and residential sectors within Peninsular*

### **About MMC Corporation Berhad**

MMC Corporation Berhad (“MMC”) is a leading utilities and infrastructure group with diversified businesses under four divisions, namely Ports and Logistics, Energy and Utilities, Engineering, and Industrial Development.

Its key businesses under the Ports and Logistics division includes the port operations of Pelabuhan Tanjung Pelepas Sdn Bhd, Johor Port Berhad, Northport (Malaysia) Bhd, Penang Port Sdn Bhd, Tanjung Bruas Port Sdn Bhd and Kontena Nasional Berhad, a logistics provider. Internationally, MMC has presence in Saudi Arabia via Red Sea Gateway Terminal Company Limited, a container port terminal within the Jeddah Islamic Port.

Under the Energy and Utilities division, Malakoff Corporation Berhad is the largest Independent Power Producer in Malaysia and its subsidiary, Alam Flora Sdn Bhd, is one of the leading environmental management companies in the country. Under Gas Malaysia Berhad, we are the supplier of reticulated natural gas in Peninsular Malaysia operating and maintaining 2,468 kilometres of gas pipeline. Through Aliran Ihsan Resources Berhad, we provide full-fledge water services using high technology treatment in Malaysia.

MMC’s Engineering Division has played a leading role as the Project Delivery Partner and underground works package contractor in completing 51 kilometres Klang Valley Mass Rapid Transit (“KVMRT”) Kajang Line (previously known as Sungai Buloh-Kajang Line) including 9.5 kilometres underground works. Currently, we are the main turnkey contractor for 52.2 kilometres KVMRT Putrajaya Line (previously known as Sungai Buloh-Serdang-Putrajaya Line). MMC also successfully completed the 329-kilometre Ipoh-Padang Besar Electrified Double Tracking Project as well as the innovative Stormwater Management and Road Tunnel (“SMART”) motorway, the first of its kind, dual-purpose tunnel in the world.

MMC is currently in the final stage of completing the Langat Centralised Sewerage Treatment Plant (920,000 Population Equivalent) and Langat 2 Water Treatment Plant (1,130 Million Litres Per Day).

MMC’s Industrial Development Division develops and manages approximately 5,000 acres of industrial developments namely Senai Airport City (“SAC”) and Tanjung Bin Industrial Park (“TBIP”) in Iskandar Malaysia, Johor and Northern Technocity (“NTC”) in Kulim Kedah. The SAC, TBIP and NTC developments come under the ambit of Industrial Development division’s three operating companies – Senai Airport City Sdn Bhd, Seaport Worldwide Sdn Bhd and Northern Technocity Sdn Bhd respectively.

A Member of  MMC Group

*In other business, through Senai Airport Terminal Services Sdn Bhd, we are the operator of Senai International Airport in Johor Bahru – the southern aviation hub and an important gateway to Iskandar Malaysia.*
